Chapter Sardar Patel Sustainability & Green Initiative

E-Waste Drive Report

Sardar Patel College Of Engineering, Andheri, June 2022

The **E-Waste Recycling Drive** was organised by “**Sardar Patel Sustainability and Green Initiative Chapter**” (SPSGIC) from 20th April to 10th May 2022 in the Bhavans Campus.

Students and professors from SPCE and other colleges on bhavan's campus contributed to the drive. As a part of this drive a large amount of E-Waste was cleared from various departments of the college, and also was received from the students of Bhavan's campus through different collection points that SPSGIC had set up. Each Department had contributed their damaged and abandoned electronic devices to the drive. The technical clubs of SPCE Wave, Robocon and SPCE Racing, had also donated their E-waste, and 50% of the recycled amount was returned to the respective clubs.

The E-waste was given to an MPCB-certified recycler- 'The Recycling Company' (Threco). This e-waste gets recycled at their facility and they make sure that maximum e-waste is diverted from the landfill and recycled instead. This aligns with the principles that SPSGIC associates with.

It is necessary to dispose of / recycle e-waste properly since it is mostly made of rare earth metals and non-biodegradable materials. Due to the lack of awareness around recycling e-waste, this initiative was taken by the SPSGIC student chapter to dispose it responsibly and to educate the students about the process and the necessity of this activity. We now have kept an E-Waste bin in our college for students, teachers and staff to put the E-waste in which gets picked up by THERCO on regular basis.

The E-waste (983kgs) was picked up from the college by Therco on 20th June 2022, which also concluded the drive. As a part of this drive an MoU was also signed between Threco Recycling LLP and SPCE for 5 years in accordance with which Threco will recycle the e-waste from the college every year.

The
Recycling
Company

Threco.B2C.June20-01 **Date: 20th June 2022**

Issued to: Sardar Patel College of Engineering

This is to certify that **Sardar Patel College of Engineering** by **SP Sustainability & Green Initiative Chapter** has transferred the ownership of E-Waste weighing **983 Kgs** to The Recycling Company (Threco Recycling LLP).

The pick-up activity was carried out on **20th June 2022**.

Threco applauds the responsible disposal and assures that all E-Waste is disposed in an eco-friendly manner.

For Threco Recycling LLP

Find the benefits of recycling electronic devices responsibly. You will be surprised to learn that your efforts benefit the environment in a tremendous way!
