REPORT ON

Two days Training cum Workshop On

“Construction, Estimating, Planning and Project Management Software-Candy”

(For students 22nd and 23rd October, 2024)

Activity Report

Two Days Training cum Workshop On “**Construction, Estimating, Planning and Project Management Software-Candy**” was organized in SPCE for training PG students of Civil Engineering to educate the students on the modern estimation, Planning, Management software. The workshop was coordinated by Dr. Anil N. Ghadge, Prof Shweta Patil, and Prof Dipika Dalvi, Assistant Professor of Civil Engineering Department.

Ms. Sree lekshmi Suresh Accredited Candy Trainer from RIB-candy, Kerala, was invited for the inaugural function scheduled on 22nd and 23rd October, 2024 at 10.00 a.m. in the Lab No. 120. Prof. Shweta Patil welcomed guests and the student participants. HOD of Civil Engineering Dr. Hansa Jeswani and Dr. A.N. Ghadge welcomed guests and briefed about the course objectives and outcomes of this workshop. Ms. Sree lekshmi Suresh addressed gatherings and explored the employment opportunities in the area of Project Management available in the construction Industry. Ms. Sree lekshmi discussed in detail salient features of Candy Software and highlighted the significance of these tools in current project management practices.

The training program was conducted on 2 days 22nd and 23rd October, 2024. On Day-1, Ms Sree Lekshmi Suresh has explained the importance of Candy software for large infrastructure projects. Trainer has provided course material through mail two days before start of training. Students were asked to take print out of course material so it was better for their understanding. The Hands on session was conducted using the case study from the real projects such as water treatment plant. On 22nd October 2024, trainer has started to teach students Creating a new company in software. She taught candy user interface, bill creation as well as estimating. On 1 st day 12 chapter were completed. Students were learned about the key features of Candy software such as Bill importing, trade code, price codes.

On 23rd October, trainer has taught about master, post tender control, cost and group codes and Valuation. Students were provided with excel sheet of civil projects. Doubts of students were solved during session.

The computer facilities were provided to work students individually in Room No. 120 of Civil Engineering Department. The students were given exercise for practice on each of topic. During sessions the students learned to of a construction projects. Examination was conducted on 26th October 2024 based on training. Pdfs were shared to trainer in google form. Trainer evaluated the students work.

The students' feedback indicates that the training on "**Construction, Estimating, Planning and Project Management Software-Candy**" was excellent.
