

**One day workshop on Reverse Engineering & Product Development in
collaboration with Design Consultancy Services and Parametric technology
Corporation (PTC) organized on 22nd March 2013**

This was another one day workshop on Reverse Engineering and Product Development organized in collaboration with Design Consultancy Services and Parametric technology Corporation (PTC) organized on 22nd March 2013. This workshop gave exposure to the participants in the area of Reverse Engineering and also the newly emerging data collection methods/devices in the form of scanners apart from co-ordinate measuring machine. The participants got an opportunity to have hands on experience on software as well as hardware in the afternoon session. This emerging area was recognized by Mechanical Engineering Department for the students and faculties. This workshop also created the footprints of Reverse Engineering and Product development in academics.

Chief Guest: Dr. G. T. Thampi

Principal

Thadomal Shahani Engg. College Bandra
