Introduction

This report analyses the scores obtained in **MET** conducted on 6th April, 2018 and 10th April, 2018 for the students of **Sardar Patel College of Engineering** by **edusharp Finishing School Pvt. Ltd.** at College campus. The test was conducted for three branches, viz. Electrical, Civil and Mechanical.

The College analysis report is divided into five sections, as follows:

1. The first section gives overall view at the scores of all the students which helps college to understand number of students scoring above and below college average and number of students who are ready for placement season.
2. The second section compares the average and highest scores of the different branches with the college average and highest scores.
3. The third section presents the student distribution based on their scores.
4. The fourth section gives development and improvement area for the college and each of the streams.
5. The fifth section gives section wise analysis on number of students needing development and improvement.

Branch-wise Student Distribution

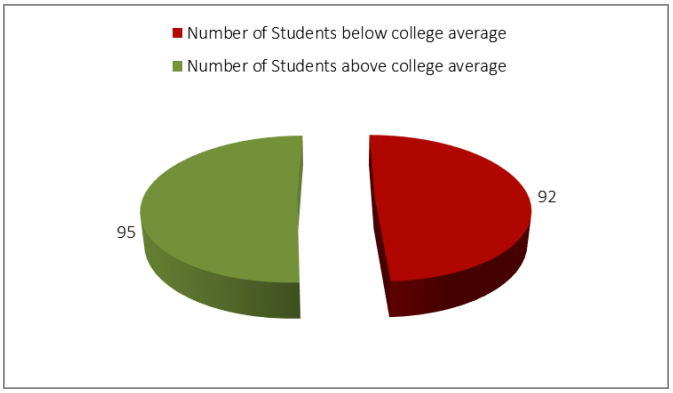
The test was conducted for three branches, viz. Electrical, Civil and Mechanical. The student distribution across these branches is as follows:

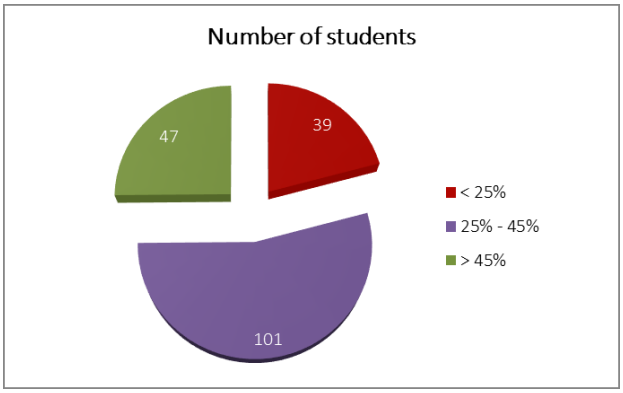
Stream	Students
Electrical	61
Civil	64
Mechanical	62
Total	**187**

Overall Performance

The key question "How many students scored above and below college average?" is answered here. To answer this question the following data is used.

Total Students appeared for test: 187



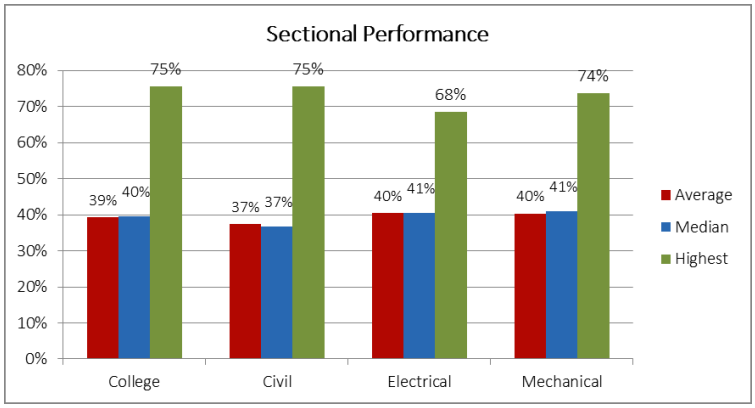


1. **College Average: 39%**
2. **Number of Students below college average: 92**
3. **Number of Students above college average: 95**

1. **Expected Average: 45%**
2. **Number of Students below expected average: 140**
3. **Number of Students below expected average: 47**

Stream-wise average scores comparison

This section compares the average scores of students across different streams. The following graph shows that average and median scores of the students from Civil are less than that of the college. For Electrical and Mechanical the average and median scores are more than that of the college.



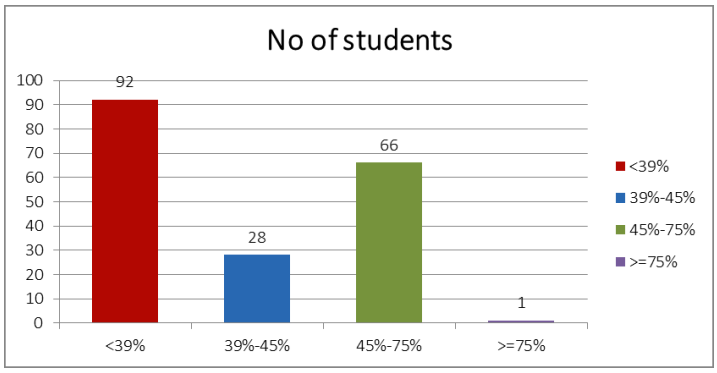
1. The average score for Civil stream is 37%
2. The highest score for Civil stream is 75%
3. The average score for Electrical stream is 40%
4. The highest score for Electrical stream is 68%
5. The average score for Mechanical stream is 40%
6. The highest score for Mechanical stream is 74%

The median score is 40% for the college, which is on the lower side compared to industry requirements. The reason for low scores could be lack of knowledge or lack of seriousness on the students' part.

Student Scores Distribution

This section analyses the performance of all the students by dividing them into four categories.

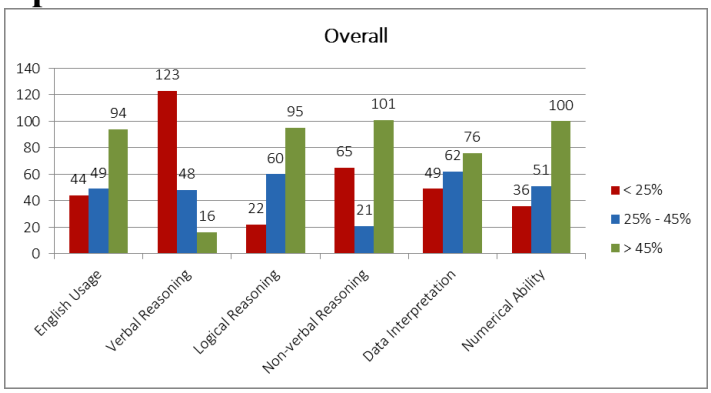
1. First category consists of students who scored less than 39% which is a college average.
2. Second category consists of students who have scored between 39%and 45% of the maximum score.
3. Third category is of the students who have scored between 45% and 75%.
4. Last category consists of students who have scored more than 75%.
5. Only 67 students scored more than 45% of the maximum score. This is an area of concern for the college.



Section-wise Student Distribution

Overall Score

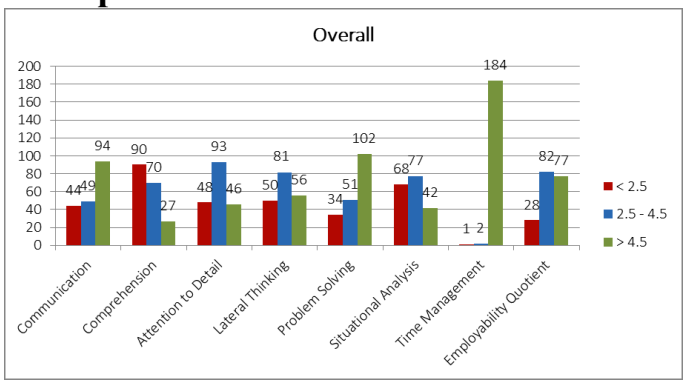
Aptitude Skills



The overall score distribution for all the students is given in the table.

1. 44 students need development and 49 students need improvement in English Usage
2. **123 students need development and 48 students need improvement in Verbal Reasoning**
3. 22 students need development and 60 students need improvement in Logical Reasoning
4. 65 students need development and 21 students need improvement in Non-verbal Reasoning
5. 49 students need development and 62 students need improvement in Data Interpretation
6. 36 students need development and 51 students need improvement in Numerical Ability

Workplace Skills



The overall score distribution for all the students is given in the graph.

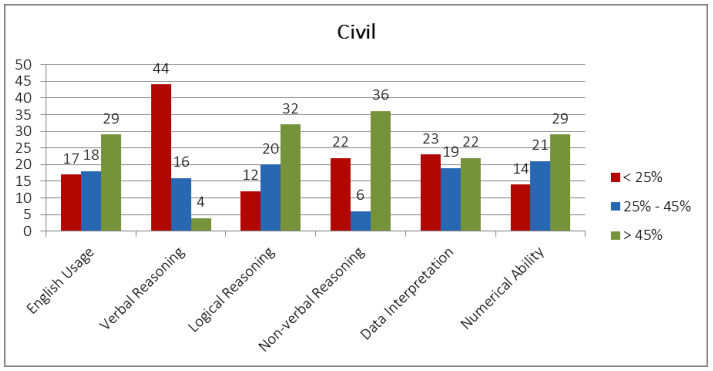
1. 44 students need development and 49 students need improvement in Communication Skills
2. 90 students need development and 70 students need improvement in Comprehension
3. 48 students need development and 93 students need improvement in Attention to Detail
4. 50 students need development and 81 students need improvement in Lateral Thinking
5. 34 students need development and 51 students need improvement in Problem Solving
6. 68 students need development and 77 students need improvement in Situational Analysis
7. 1 student needs development and 2 students need improvement in Time Management
8. 28 students need development and 82 students need improvement in Employability Quotient

Civil

Aptitude Skills

The overall score distribution for Civil students is given in the graph.

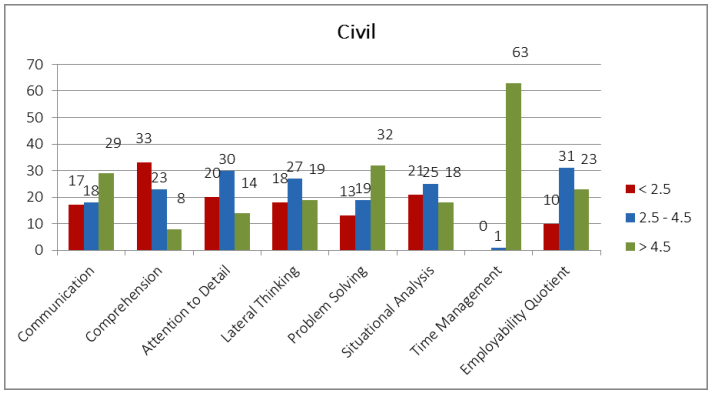
1. 17 students need development and 18 students need improvement in English Usage
2. **44 students need development and 16 students need improvement in Verbal Reasoning**
3. 12 students need development and 20 students need improvement in Logical Reasoning
4. 22 students need development and 6 students need improvement in Non-verbal Reasoning
5. 23 students need development and 19 students need improvement in Data Interpretation
6. 14 students need development and 21 students need improvement in Numerical Ability



Workplace Skills

The overall score distribution for Civil students is given in the table.

1. 17 students need development and 18 students need improvement in Communication Skills
2. 33 students need development and 23 students need improvement in Comprehension
3. 20 students need development and 30 students need improvement in Attention to Detail
4. 18 students need development and 27 students need improvement in Lateral Thinking
5. 13 students need development and 19 students need improvement in Problem Solving
6. 21 students need development and 25 students need improvement in Situational Analysis
7. No student need development and 1 student needs improvement in Time Management
8. 10 students need development and 31 students need improvement in Employability Quotient

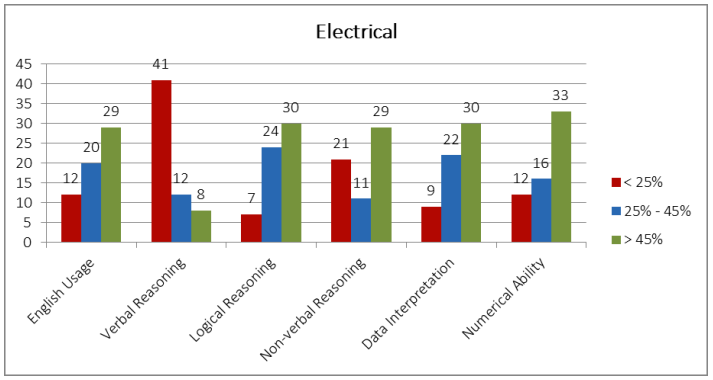


Electrical

Aptitude Skills

The overall score distribution for Electrical students is given in the table.

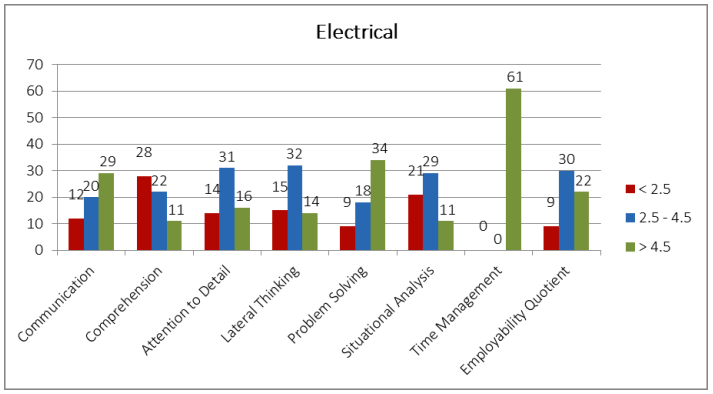
1. 12 students need development and 20 students need improvement in English Usage
2. **41 students need development and 12 students need improvement in Verbal Reasoning**
3. 7 students need development and 24 students need improvement in Logical Reasoning
4. 21 students need development and 11 students need improvement in Non-verbal Reasoning
5. 9 students need development and 22 students need improvement in Data Interpretation
6. 12 students need development and 16 students need improvement in Numerical Ability



Workplace Skills

The overall score distribution for Electrical students is given in the table.

1. 12 students need development and 20 students need improvement in Communication Skills
2. 28 students need development and 22 students need improvement in Comprehension
3. 14 students need development and 31 students need improvement in Attention to Detail
4. 15 students need development and 32 students need improvement in Lateral Thinking
5. 9 students need development and 18 students need improvement in Problem Solving
6. 21 students need development and 29 students need improvement in Situational Analysis
7. No student needs development and no student needs improvement in Time Management
8. 9 students need development and 30 students need improvement in Employability Quotient

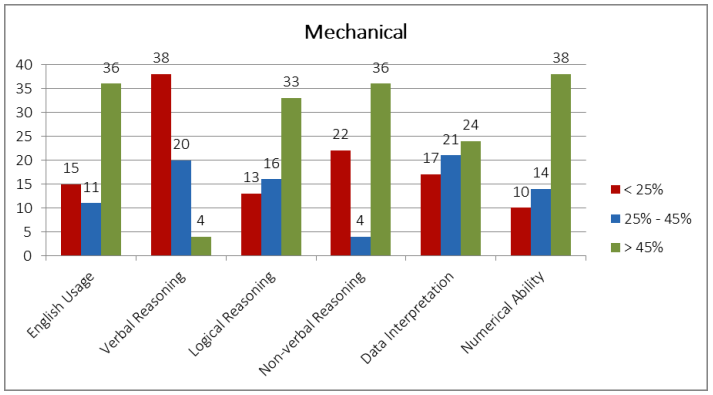


Mechanical

Aptitude Skills

The overall score distribution for Mechanical students is given in the table.

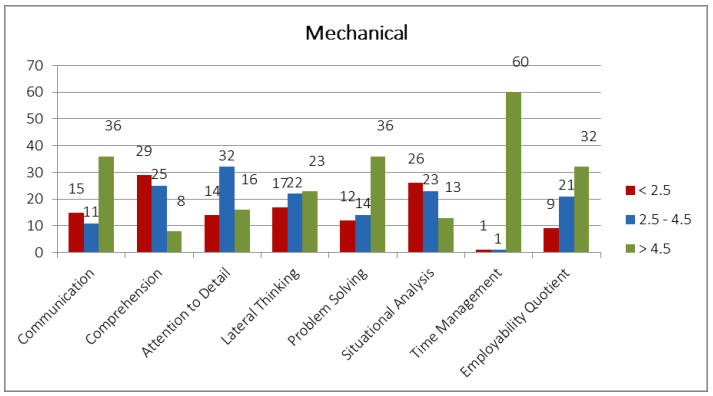
1. 15 students need development and 11 students need improvement in English Usage
2. **38 students need development and 20 students need improvement in Verbal Reasoning**
3. 13 students need development and 16 students need improvement in Logical Reasoning
4. 22 students need development and 4 students need improvement in Non-verbal Reasoning
5. 17 students need development and 21 students need improvement in Data Interpretation
6. 10 students need development and 14 students need improvement in Numerical Ability



Workplace Skills

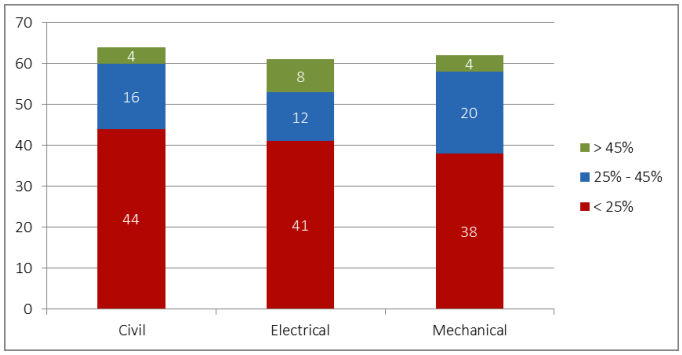
The overall score distribution for Mechanical students is given in the table.

1. 15 students need development and 11 students need improvement in Communication Skills
2. 29 students need development and 25 students need improvement in Comprehension
3. 14 students need development and 32 students need improvement in Attention to Detail
4. 17 students need development and 22 students need improvement in Lateral Thinking
5. 12 students need development and 14 students need improvement in Problem Solving
6. 26 students need development and 23 students need improvement in Situational Analysis
7. 1 student need development and 1 students need improvement in Time Management
8. 9 students need development and 21 students need improvement in Employability Quotient



Stream-wise Student Distribution
Aptitude Skills
Verbal Reasoning

Verbal Reasoning	Civil	Electrical	Mechanical	Grand Total
< 25%	44	41	38	123
25% - 45%	16	12	20	48
> 45%	4	8	4	16
Grand Total	64	61	62	187

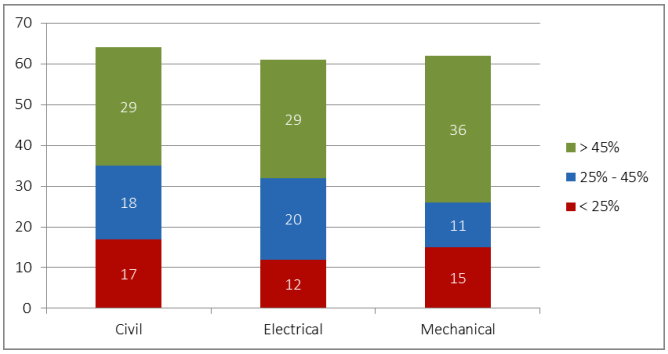


The Verbal Reasoning score distribution for all the students is given in the table.

1. 123 students have scored below 25% who need development in Verbal Reasoning
2. 48 students have scored above 25% but below 45% who need improvement in Verbal Reasoning
3. 16 students have scored above 45%

English Usage

English Usage	Civil	Electrical	Mechanical	Grand Total
< 25%	17	12	15	44
25% - 45%	18	20	11	49
> 45%	29	29	36	94
Grand Total	64	61	62	187



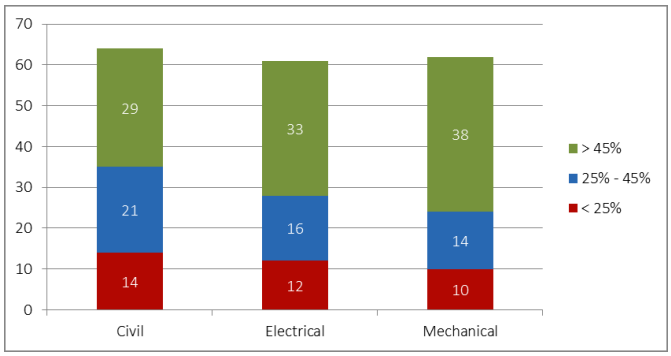
The English Usage score distribution for all the students is given in the table.

1. 44 students have scored below 25% who need development in English Usage
2. 49 students have scored above 25% but below 45% who need improvement in English Usage
3. 94 students have scored above 45%

- Verbal Reasoning and English Usage score analysis is presented together as these sections usually are correlated to candidates performance.
- A student who is good in English Usage normally has better Verbal Reasoning skills.
- A student who needs development in English Usage, needs development in Verbal Reasoning as well.
- Based on the scores in these two sections a training program for these two aptitudes can be merged for the same set of students.

Numerical Ability

Numerical Ability	Civil	Electrical	Mechanical	Grand Total
< 25%	14	12	10	36
25% - 45%	21	16	14	51
> 45%	29	33	38	100
Grand Total	64	61	62	187

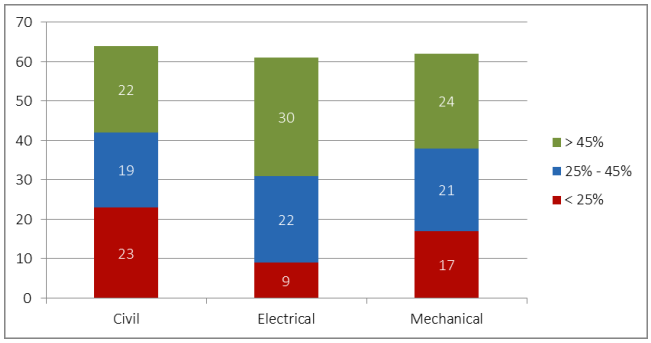


The Numerical Ability score distribution for all the students is given in the table.

1. 36 students have scored below 25% who need development in Numerical Ability
2. 51 students have scored above 25% but below 45% who need improvement in Numerical Ability
3. 100 students have scored above 45%

Data Interpretation

Data Interpretation	Civil	Electrical	Mechanical	Grand Total
< 25%	23	9	17	49
25% - 45%	19	22	21	62
> 45%	22	30	24	76
Grand Total	64	61	62	187



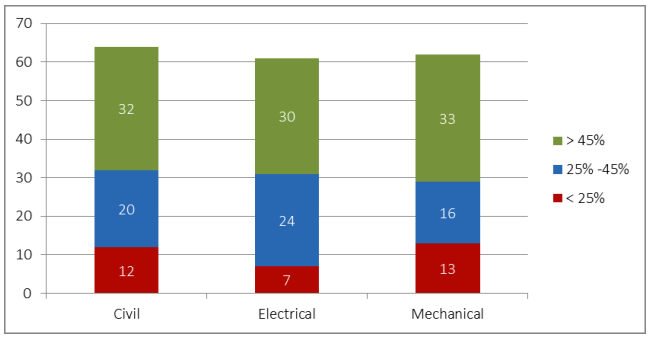
The Data Interpretation score distribution for all the students is given in the table.

1. 49 students have scored below 25% who need development in Data Interpretation
2. 62 students have scored above 25% but below 45% who need improvement in Data Interpretation
3. 76 students have scored above 45%

- Numerical Ability and Data Interpretation score analysis is presented together as these sections usually are correlated to candidates performance.
- A student who needs development in Numerical Ability usually needs development in Data Interpretation as well.
- Based on the scores in these sections a training program for these aptitude skills can be merged.

Logical Reasoning

Logical Reasoning	Civil	Electrical	Mechanical	Grand Total
< 25%	12	7	13	32
25% - 45%	20	24	16	60
> 45%	32	30	33	95
Grand Total	64	61	62	187

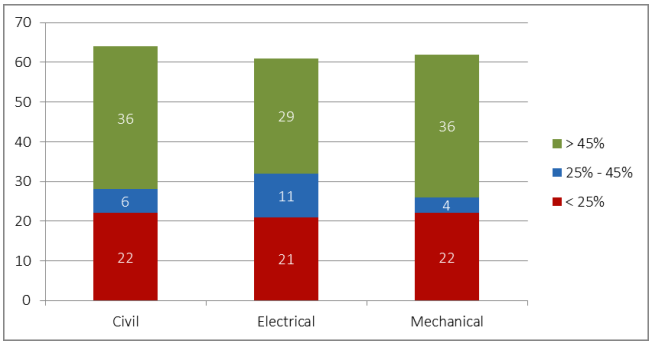


The Logical Reasoning score distribution for all the students is given in the table.

1. 32 students have scored below 25% who need development in Logical Reasoning
2. 60 students have scored above 25% but below 45% who need improvement in Logical Reasoning
3. 95 students have scored above 45%

Non-verbal Reasoning

Non-verbal Reasoning	Civil	Electrical	Mechanical	Grand Total
< 25%	22	21	22	65
25% - 45%	6	11	4	21
> 45%	36	29	36	101
Grand Total	64	61	62	187



The Non-verbal Reasoning score distribution for all the students is given in the table.

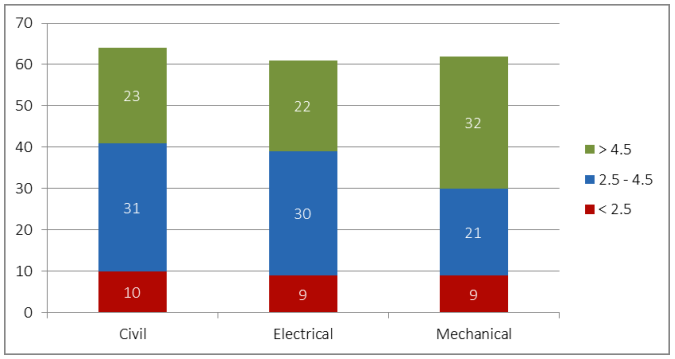
1. 65 students have scored below 25% who need development in Non-verbal Reasoning
2. 21 students have scored above 25% but below 45% who need improvement in Non-verbal Reasoning
3. 101 students have scored above 45%

- Logical Reasoning and Non-verbal Reasoning score analysis is presented together as these sections usually are correlated to candidates performance.
- A student who needs development in Logical Reasoning usually needs development in Non-verbal Reasoning as well.
- Based on the scores in these two sections a training program for these aptitude skills can be merged.

Workplace Skills

Employability Quotient

Employability Quotient	Civil	Electrical	Mechanical	Grand Total
< 2.5	10	9	9	28
2.5 - 4.5	31	30	21	82
> 4.5	23	22	32	77
Grand Total	64	61	62	187

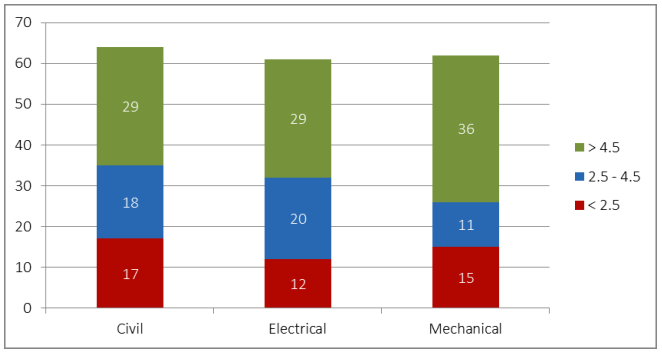


The employability quotient distribution for all the students is given in the table.

1. 28 students have scored below 2.5 who need development to improve their employability
2. 82 students have scored above 2.5 but below 4.5 who need improvement in their employability
3. 77 students have scored above 4.5

Communication Skills

Communication Skills	Civil	Electrical	Mechanical	Grand Total
< 2.5	17	12	15	44
2.5 - 4.5	18	20	11	49
> 4.5	29	29	36	94
Grand Total	64	61	62	187

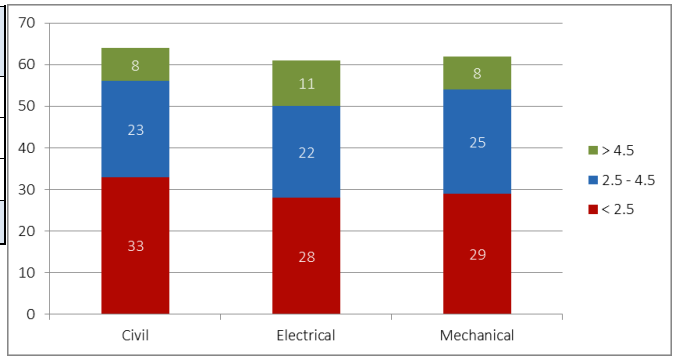


The communication skills distribution for all the students is given in the table.

1. 44 students have scored below 2.5 who need development in their communication skills
2. 49 students have scored above 2.5 but below 4.5 who need improvement in their communication skills
3. 94 students have scored above 4.5

Comprehension

Comprehension	Civil	Electrical	Mechanical	Grand Total
< 2.5	33	28	29	90
2.5 - 4.5	23	22	25	70
> 4.5	8	11	8	27
Grand Total	64	61	62	187

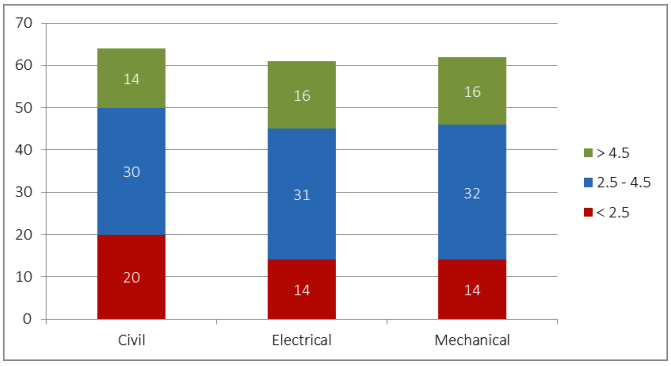


The comprehension quotient distribution for all the students is given in the table.

1. 90 students have scored below 2.5 who need development in their comprehension
2. 70 students have scored above 2.5 but below 4.5 who need improvement in their comprehension
3. 27 students have scored above 4.5

Attention to Detail

Attention to Detail	Civil	Electrical	Mechanical	Grand Total
< 2.5	20	14	14	48
2.5 - 4.5	30	31	32	93
> 4.5	14	16	16	46
Grand Total	64	61	62	187

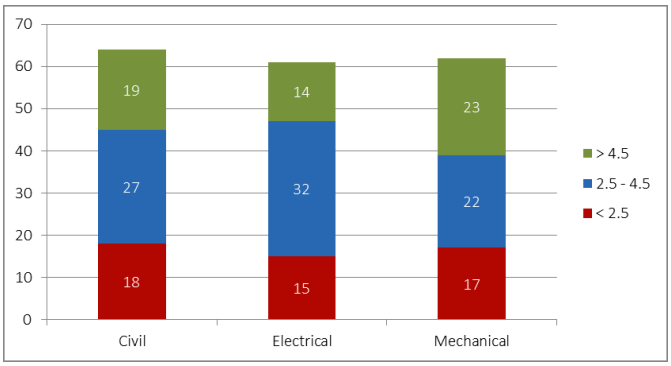


The attention to detail quotient distribution for all the students is given in the table.

1. 48 students have scored below 2.5 who need development in their attention to detail
2. 93 students have scored above 2.5 but below 4.5 who need improvement in their attention to detail
3. 46 students have scored above 4.5

Lateral Thinking

Lateral Thinking	Civil	Electrical	Mechanical	Grand Total
< 2.5	18	15	17	50
2.5 - 4.5	27	32	22	81
> 4.5	19	14	23	56
Grand Total	64	61	62	187

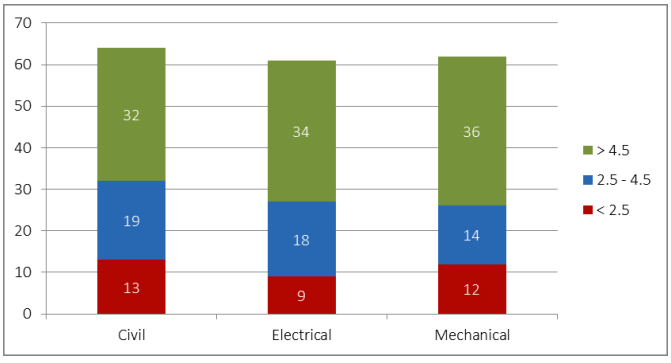


The lateral thinking quotient distribution for all the students is given in the table.

1. 50 students have scored below 2.5 who need development in their lateral thinking
2. 81 students have scored above 2.5 but below 4.5 who need improvement in their lateral thinking
3. 56 students have scored above 4.5

Problem Solving

Problem Solving	Civil	Electrical	Mechanical	Grand Total
< 2.5	13	9	12	34
2.5 - 4.5	19	18	14	51
> 4.5	32	34	36	102
Grand Total	64	61	62	187

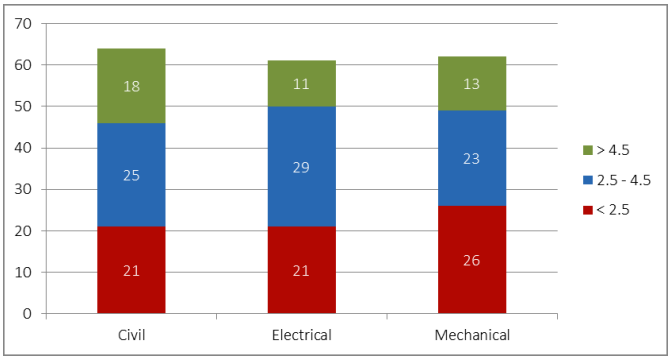


The problem solving quotient distribution for all the students is given in the table.

1. 34 students have scored below 2.5 who need development in their problem solving
2. 51 students have scored above 2.5 but below 4.5 who need improvement in their problem solving
3. 102 students have scored above 4.5

Situational Analysis

Situational Analysis	Civil	Electrical	Mechanical	Grand Total
< 2.5	21	21	26	68
2.5 - 4.5	25	29	23	77
> 4.5	18	11	13	42
Grand Total	64	61	62	187

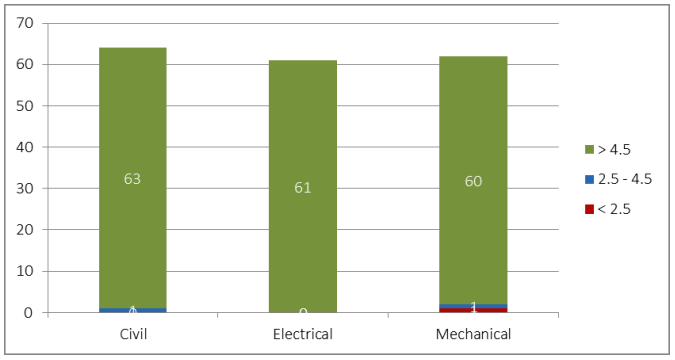


The situational analysis quotient distribution for all the students is given in the table.

1. 68 students have scored below 2.5 who need development in their situational analysis
2. 77 students have scored above 2.5 but below 4.5 who need improvement in their situational analysis
3. 42 students have scored above 4.5

Time Management

Time Management	Civil	Electrical	Mechanical	Grand Total
< 2.5	0	0	1	1
2.5 - 4.5	1	0	1	2
> 4.5	63	61	60	184
Grand Total	64	61	62	187



The time management quotient distribution for all the students is given in the table.

1. 1 student has scored below 2.5 who need development in their time management
2. 2 students have scored above 2.5 but below 4.5 who need improvement in their time management
3. 184 students have scored above 4.5

Conclusion

From the above report it is concluded that the overall performance of students is weakest in verbal reasoning and English usage, followed by numerical ability and data interpretation.
